Frontend developer
Designer

I am a passionate web developer with experience in JavaScript, Css, Html, and React.js. I am a designer with a very fine taste and understanding of details. I constantly strive for excellence and aim to achieve high results in my work. I have a good understanding of user experience and can create attractive and intuitive designs. My skills include building responsive websites, search engine optimization, and more. I also have experience working in a team and can effectively collaborate with other developers and designers. I'm always ready for new challenges and strive to constantly learn and develop my skills. I am confident that my knowledge and experience will allow me to successfully perform the tasks of a web developer and designer.

Skils

I use it in the frontend:
JavaScript
CSS
HTML
React JS / Native

I use it in my design:
Figma
Adobe Photoshop
Adobe Illustrator
Adobe XD
